

DIY

Concrete Planter Class

at S-Bar-S

At this fun craft how-to event you will learn how to make a light-weight concrete planter using everyday materials. You will also learn how to make a unique concrete planter with an old towel. Materials (except the towel) and instruction are provided for you to make one of each type of planter.

Cost to attend is \$20 and space is limited so reserve your spot today. (To reserve your spot, come on in to the store or mail a check to S-Bar-S, 2032 Old Hardin Rd, Billings MT 59101 - be sure to include your name and that it is for the planter class.)

Saturday, March 23rd
1 pm - 3 pm

All you need is an old towel that you don't mind transforming into a planter. Things might get messy, so dress with that in mind.
